

# Canopy (TCM)

Lamp included  
Suitable for damp locations

WEIGHT = 34-43 lbs

### TCM Series Specification

TCM Series is a surface mounted wide beam luminaire. Available in 250 to 400 watt mogul base high pressure sodium lamp and 250 to 400 watt mogul base metal halide lamp. Available with (specify) 120, 208, 240, 277, 480 volt, or 4MT (120,208,240,277V) 60Hz ballast. Luminaire shall be completely pre-wired for ease of installation.

### Basic Product Description

One-piece steel housing with weather tight welded and finished corners, sealing out moisture and dust. High quality baked white polyester powder coating will withstand extreme temperature change without cracking, peeling or fading. Hinged aluminum lens frame fully opens for easy lamp access. A single capture screw secures the lens frame to the housing. A one-piece E.P.D.M. gasket provides maximum sealing between the housing and lens frame. Three types of lenses and diffusers are available, Corning #73 (CO), drop prismatic acrylic (LXA), and drop prismatic polycarbonate (LXP). Porcelain lamp socket with spring loaded center contact eliminates lamp loosening.

### Ballast Characteristics

TCM Series shall contain a long lasting, U.L. recognized High Power Factor (HPF) constant wattage auto-transformer (CWA) type ballast. Will start lamps at -20°F (-30°C) for metal halide and -40°F (-40°C) for high pressure sodium. Mercury vapor lamps may be used in 250-400 watt metal halide fixtures. For availability of 220/240V, 50Hz ballast - consult factory.

### Reflector Assembly

One-piece precision formed alzak finished reflector provides a uniform symmetrical distribution.

### Suggested Applications

Under canopy lighting for gas stations, convenience stores and hotels.

### Note:

TCM 400 Series should be mounted to concrete or metal ceilings only.

### Ordering Example

Unit	Wattage	Photometrics	Mounting	Lamp Style	Voltage	Ballast Style	Options
